CAREER OBJECTIVE

To apply my programming and problem-solving skills in a challenging role where I can contribute to innovative software solutions and grow as a technology professional.

EDUCATIONAL QUALIFICATION

Muthayammal Engineering College

(Autonomous),

B.Tech [AI & DS]

2026 | Rasipuram

Anna University, CGPA: 7.69

Narayana, Junior College

Intermediate

2022 | Gudur

BIEAP State Board, Percentage: 71.5%

Narayana E-Techno School

SSC

2020 | Gudur

BSEAP State Board, Percentage: 96%

TECHNICAL SKILLS

Programming Languages: Python

Python Libraries: NumPy, Pandas, Matplotlib, Seaborn.

Frameworks: Flask

Web Technologies: HTML, CSS.

Database Technology: MySQL, MongoDB.

Software Known: VS Code, Github

SOFT SKILLS

- Hardworking and Quick Learner
- Strong Communication ability
- Active listening skills and Time Management

LANGUAGES KNOWN

Telugu, English

CERTIFICATIONS

- Received certificate from NPTEL for "Foundation of cloud Iot Edge ML" course.
- Received certificate from NPTEL for "Distributed Systems" course.
- Completed "Python" 500+ practice problems on CodeChef.

PROJECTS

NLP FOR TEXT CLASSIFICATION

Role: Machine Learning Developer

Technologies Used: Python, Scikit-learn, Pandas, NumPy

- Developed a text classification system to identify whether a given message is Spam or Not Spam
- Performed data preprocessing including tokenization, stopword removal, and text cleaning.
- Converted text data into numerical format using TF-IDF vectorization techniques.
- Implemented machine learning algorithms such as Naive Bayes / SVM for accurate classification.
- Trained and tested the model on labeled datasets to improve prediction performance.

AI Coding Practice Platform

Role: Full Stack Developer

Technologies Used: Python, Flask, MySQL, HTML, CSS

- Developed a web-based AI Coding Practice Platform that allows users to solve programming problems and improve coding skills.
- Implemented the backend using Python (Flask) and managed data using MySQL database.
- Designed the frontend using HTML and CSS to create an interactive user interface.
- Stored user details, coding questions, and results in the database for tracking performance.
- Enabled users to practice coding problems and monitor their progress through the platform.

DECLARATION

I hereby confirm that all the information given above is true to the best of my knowledge and belief.
